-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of Invention I (claims 4-8) in the reply filed on 04/07/2005 is acknowledged.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) The invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 4-8 are rejected under 35 U.S.C. 102(e) as being anticipated by East et al. Patent Application Publication No. US 2003/0061323 A1 (herein after referred to as "*East*".)

4. Referring to claim 4, East teaches a networked computer system comprising: (A) a server computer system that includes model configuration settings that specify desired configuration settings for a computer system [see paragraph 47 and figure 4,

elements 210AB-B]; (B) a plurality of endpoint computer system coupled to the server computer system, each endpoint computer system including corresponding configuration settings [see paragraph 47 and figure 4, elements 200A-N]; (C) a system administration workstation [see paragraph 47 and figure 4, elements 202A-C] including a graphical user interface [see paragraphs 52, 81] for administration of the configuration settings of the plurality of endpoint computer systems, the graphical user interface including at least one display panel that allows a user to select the model configuration settings [see paragraphs 52, 57-59], that allows a user to select from the plurality of endpoint computer system for comparison with the model configuration settings [see paragraphs 52, 57-59, 8-10], that display difference between the selected endpoint computer system and the model configuration settings, that allows a user to select from the selected endpoint computer system for updating [see paragraphs 76, 52, 57-59, 8-10, 76], and that automatically updates the configuration settings of the endpoint computer systems selected for updating according to the model configuration settings [see paragraphs 52, 57-59, 8-10.]

5. **Referring to claim 5**, East teaches the networked computer system wherein the server computer system further includes a configuration mapping mechanism that maps at least one

Art Unit: 2182

configuration settings for at least one computer system to the model configuration settings [see paragraphs 52, 57-59, 8-10.]

6. **Referring to claim 6**, East teaches the networked computer system wherein the configuration mapping mechanism maps at least one configuration settings in a first computer platform to at least one corresponding configuration setting in a second computer platform [see paragraphs 52, 57-59, 8-10.]

7. **Referring to claim 7**, East teaches the networked computer system wherein the at least one configuration setting for each endpoint computer system comprises system settings and customization settings [see paragraphs 50.]

8. **Referring to claim 8**, East teaches the networked computer system further comprising a computer program running on each computer system selected for updating, the computer program sending status of any requested update of configuration settings to the graphical user interface [see paragraph 78.]

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
